Spring Disorders

Shattered nerves, tired brain, impaired blood, debilitated system, all are the natural outcome in the Spring. A medicine must be used, and nothing equal Paine's Celery Compound. We let others praise us—you can help believing a distressed party.

Brigadier-General W. L. Greenleaf, Burlington, Vt., writes: "I have used Paine's Celery Compound on several occasions, and always with benefit. Last spring, being very much run down and debilitated, I commenced taking it. Two bottles made me feel like a new man. As a general tonic and spring medicine I do not know of its equal."

"I have used two bottles of your Paine's Celery Compound, and it has given entire satisfaction as an appetizer and blood purifier." T. L. BAKER, Watertown, Dakota.

BILL BRAZELTON'S END.

He Was the First and Greatest Highwayman of Tucson, A. T.

A gentleman from Tucson, A. T., in the lobby of the National Hotel, spoke of one of the desperadoes of his town, says the Washington Post:

"I see," said he, "that some fellow out in California has been 'holding up' stage loads of people by himself. The desperadoes speak of him as the 'Lone Highwayman.' I want to tell you that the first and greatest lone highwayman in this country lived in Tucson, and his name was Bill Brazelton. He has now been seven or eight years since he was killed. While he lived he was the terror of Southern Arizona, and he did all of his work single-handed. He used to work in a livery-stable in Tucson. He was a young fellow who did not say much, but was all the time practicing with his revolver when he was not at his work. He was the most active, powerful young man I ever saw."

"He got so he could turn a somersault with his pistol in his hand and so he came up his fifty-cent piece every time twenty-five yards away. He could shoot in every position, whether standing, running or riding, and every time he 'plumped' the bull's-eye. Suddenly he left town, and it was not long till we heard of his robbing stages all around. He had nerves of steel, and did not seem to be afraid of any body or any thing. The greatest effort was made to capture him, but he eluded all of his pursuers. He seemed to be here, there and everywhere at the same time. Finally it was suspected that a hostler working in the stable where Brazelton had been employed knew something of him. He was taken out to the edge of town and hanged up till he was almost dead, when he agreed to confess on condition that Brazelton should be shot on sight, as he would kill any man who betrayed his secret at the first opportunity."

"The hostler said he was to go out to meet Brazelton that very night and take him something to eat. He was to wait behind a log in a certain piece of woods. A party of six well-armed men took the hostler and went with him to the place of rendezvous. They all lay down behind the log and waited for Brazelton. By and by he rode out of a thicket into an open space and came slowly toward the unsuspecting ambush. He carried his pistol in his hand as if suspecting that things were not all right. When within thirty yards of the log the whole party rose and fired, killing the horse and rider in an instant. It was one of the most dramatic incidents that ever occurred about Tucson in those troublesome days. Brazelton's body was riddled with balls. He was brought to town and the next morning he was propped up against the adobe wall and his photograph taken, and this local photographer has to-day in his show case a ghastly illustration of the triumph of his art."

REAL SCOTCH HUMOR.

Bright Flashes Gathered Here and There by a Highland Editor.

Dr. Scott, of Greenock, says the Scottish World, used to tell of a sailor who came to be married, but when asked if he would take the woman to be his wife, looked blank and said: "I would like to know first what you are going to say to me." At another time when the woman was asked if she would obey, but did not answer, the man—a sailor—exclaimed: "Leave that to me, sir."

In those days people that felt sleepy during the sermon used, as now in Germany, to shake off drowsiness by standing up; but poor human nature made this at times an occasion of display. At Old Monkland a man who had on a rather gaudy vest stood up more than once and threw back his coat, apparently to let his vest be seen. Mr. Bower, the minister, at length said: "Noo, John, ye had better sit doon. We have a' seen your bare waistcoat."

It was to Mr. Bower that the grave-digger once said: "Trade's very dull the noo. I haen a buried a leevin' cratur for three weeks."

The people seem to have had a dislike to sermons being read. They used to say: "Hoo can we mind the minister's sermon if he canna mind it himself!"

What are we to think of the lady who sent to her minister, Mr. Rusk, of Dulser, a polite message that "he should clean his teeth," and received the answer that "she should scrape her tongue?"

When his people sent a deputation requesting him to tell them more in his sermons about renouncing their own righteousness, he tartly replied: "It is the first time I heard that you had any righteousness to renounce."

Mr. Thom, of Govan, maintained a great warfare against the Glasgow magistrates. One day, while he was standing with the provost in the street, a ragged urchin came up begging, and was sternly driven away by the provost, who had himself risen from nothing. Mr. Thom interposed, and said: "Hey, laddie, there's a penny for you. Ye'll may be provost of Glasgow yourself yet."

One of the magistrates saw him one day riding a good horse, and said: "You're better than your master, Mr. Thom, for he rode on an ass." Mr. Thom retorted: "We would be willing enough to ride on asses, too, but they're no to be got nowadays. They've made them all magistrates."

A Tough Rat Story.

A naval officer says: "I have always felt some regard for rats since my cruise in the Constellation. We were sitting for sea at Norfolk, and taking in water and provisions; a plank was resting on the sill of one of the ports which communicated with the wharf. On a bright moonlight evening we discovered two rats on the plank coming into the ship. The foremost was leading the other by a straw, one end of which each held in his mouth. We managed to capture them both, and found, to our surprise, that the one led by the other was stone blind. His faithful friend was trying to get him comfortable quarters during a three years' cruise. We felt no disposition to kill either, and landed them on the wharf. How many there are in this world to whom the fidelity of that rat teaches a lesson!"

Deaths from Lightning.

The majority of deaths from lightning occur in the level, open country—trees, villages and thickly built-up towns and cities, by their projections in the air, serving as conductors and thereby protecting the inhabitants from direct stroke. The loss of life annually throughout the world is very great. In European Russia, from 1870 to 1877, no less than 2,970 persons were killed by this cause. In Austria, during the same time, 1,700 persons were likewise killed. In France it is reported that seventy persons are annually killed. Ten thousand persons are reported as having been struck during a period of twenty years, with 5,233 deaths in France, while in the United States during 1870 alone, 260 deaths from lightning were recorded.

The dispatches inform us that Chili has passed a law excluding the Chinese, but is making great exertions to induce foreigners from Europe to go and make homes there, trying, as the dispatch says, to induce immigration on a gigantic scale, to supply the places of their own people, who are emigrating across the Andes. At the same time the Argentine Confederation is paying the passage of English and Irish emigrants to their country, and giving each title to 200 acres of land, on their arrival. This, says the Salt Lake Tribune, is a matter which ought to make the men of the United States thoughtful. Those hosts are spreading over the Pampas, peopling a country equal to one-third of the United States; a country of wonderfully rich soil, bisected in all directions by splendid navigable rivers, on which products can be brought cheaply to the coast, and the result cannot but be, in a few years, to supply the markets of Europe with all the breadstuffs, meat, wool and hides that they can consume. It will be a long time before it becomes a great manufacturing country. For years and years it will need vast supplies of agricultural implements, locomotives, household furniture and all that variety of manufactured goods, which our artisans most excel in making. There should be a closer alliance between our country and that, so that when our European markets are reduced by competition with that country, we can make up the loss by finding a market there for more costly goods. What is true of our relations with that country is equally true with all the countries of Spanish America. These south lands should be our inheritance, the region in which in the future the young men of our country should go out and make fortunes and names in, and by conquest of peace gradually bring them under the dominion of the Anglo-Saxon. If we mistake not, the man who will soon be Secretary of State has this thought in mind more than any other.

The Parnell-"Times" Commission.

THE notorious Pigott has made a confession that he was the forger of the letters which the Times newspaper relied upon to prove that Pigott was secretly in league with the extreme wing of the Irish party, and was therefore directly responsible for many of the crimes and outrages committed in Ireland. After making the confession the forger fled, but not until he had given the Times people a counter confession denying the truth of his admission to Labouchere and Parnell, which were made in writing. Parnell's lawyers, says the San Francisco Chronicle, naturally suspect that Pigott's flight was instigated by the Times people and their Tory friends, who were in dread that the forger would disclose a conspiracy in which they were participants. As all the other witnesses put on the stand by the Times have failed to connect Parnell with the alleged outrages, and as the chief witness of the newspaper, Pigott the forger, has fled, it is difficult to perceive how the "Thunderer" can save itself from being muled in heavy damages. The breakdown of the Times' case will probably be followed by a strong reaction against the Government, and it is not at all improbable that it may in some way result in the overthrow of the present Ministry.

ASSEMBLY bill No. 140, which provides for giving the District Judges power to create an official organ in each county of the State for advertising purposes, seems to us to be ill advised. While it is a matter of the utmost indifference to the Gazette, for if the county does not want to advertise in its columns it has the privilege of going elsewhere, we believe it would be a bad precedent to establish, and one that would be likely to work a hardship in some directions.

Ex-Vice-President Hannibal Hamlin in the Senate.

[ASSOCIATED PRESS DISPATCHES TO THE GAZETTE.]

An Unfriendly Act.

BOSTON, Feb. 28.—A complication has arisen between the United States of America and the United States of Columbia. A schooner went from here to Aspinwall with a cargo of ice, and when partly unloaded the Columbia government stopped further work and closed up the houses of the Boston Ice Company with several hundred tons of ice. This action was taken because the government had sold the exclusive right to sell ice to a home company. As Aspinwall is a free port this is considered an infraction of the treaty, and an appeal was made to Secretary Bayard, who so notified Columbia. The United States steamers Aspinwall and Atlanta were dispatched to Aspinwall, but at the latest advice, had done nothing to effect a settlement. The United States Consul at Aspinwall has been notified by Secretary Bayard that force is not authorized against the Columbia government. The action of the Columbia authorities has been peculiarly harsh throughout the difficulty. The Columbians are very defiant in tone and say the United States has not the ability to coerce them.

Defective Government Work.

WASHINGTON, Feb. 28.—The Congressional Committee to investigate the charges of fraud in the construction of the new Washington aqueduct have made a report in which they say: "Beyond all question, substantially the whole and every part of the lining of the tunnel is absolutely and enormously defective, and that it is scarcely too much to say that there is hardly any continuous backing, particularly over the arch of the line, where it is either absolutely wanting or only partly filled, or when fully filled, is so badly constructed as to make the whole backing of the lining entirely worthless." They say it would take nearly a million dollars to put the tunnel in good shape, and recommend it to be abandoned and iron pipe substituted at a cost of a half million.

Dynamite Torpedoes.

WASHINGTON, Feb. 28.—The Secretary of the Navy has entered into a contract with J. N. H. Patrick of College Point, Long Island, to furnish three controllable automobile torpedoes of the Patrick patent, for use in the navy, at a total cost of \$55,000. Each torpedo is to carry four hundred pounds of dynamite, and is guaranteed to run one statute mile at the rate of 20 knots an hour. The first is to be delivered within five months and the other two within seven months.

Fighting for Business.

NEW YORK, Feb. 28.—During the stagnation in the first and second class passenger business, the trans-continental lines have been fighting for the immigrant business at Castle Garden. In the last few days, the commissions on California tickets have been as high as \$14. The war is chiefly directed against the Southern Pacific, which secures in Europe over half the California business.

Cordially Greeted.

WASHINGTON, Feb. 28.—This afternoon Hannibal Hamlin was on the floor of the Senate. He seemed to greatly enjoy the congratulations of Senators, which were freely extended. The ten minute executive session of the Senate to-day was devoted to the reception of messages from the President, and their reference to appropriate committees.

STOCKHOLM, Feb. 28.—The wife of Prince Oscar has been delivered of a daughter.

Congressional Proceedings.

WASHINGTON, Feb. 28.—House amendment to Senate bill in regard to the salmon fisheries of Alaska, extending its operation to Behring Sea, was presented and referred, on motion of Edmunds, to the committee on Foreign Affairs. On motion of Sherman, who said he had important business requiring consideration at once, the Senate went into executive session. When the doors were reopened a large number of bridge bills passed.

The House bill granting the Wyoming Midland Railway Company the right of way through the Wind river Indian reservation was passed with an amendment. The Postoffice appropriation bill was passed with amendments, one of which was a provision that there shall not be allowed for the use of any third-class postoffice for rent a sum in excess of \$600, nor for fuel and lights, in excess of \$60 in one year. The Senate then went into executive session.

HOUSE.

The Speaker laid before the House Senate bill for the protection of the salmon fisheries of Alaska. Dunn of Arkansas, offered an amendment directing the President to cause one or more United States vessels to cruise in Behring Sea and other Alaskan waters, and seize all vessels unlawfully engaged in seal hunting. Dunn explained that the sole object of the amendment was to enforce the existing law.

Amendment adopted and bill passed. After a talk in which Hamlin of Missouri antagonized the bill for a public building, with the Sullivan confession case, the Speaker was authorized to appoint a committee to co-operate with a Senate committee to arrange for Harrison's inauguration.

The Committee on Naval Affairs.

reported the naval appropriation bill with the Senate amendments, recommending concurrence in some and non-concurrence in others.

A Republican Revue.

BALTIMORE, Feb. 28.—When President James C. Foster called the convention of the National League of Republican Clubs to order this afternoon, there was a large attendance. President Foster briefly stated the reason for the holding of the convention at this time. He congratulated the League on the result of its work last Fall. He spoke of the rapid growth of the League, and said at the head of the inaugural parade on Monday, its banner would be found. He congratulated the Republican party on the acquisition of four new Republican States, and his allusion to Blaine as the next Secretary of State was greeted with an outburst of enthusiastic cheering. The roll-call was answered by nearly 200. The delegates from North Dakota, South Dakota, Washington and New Mexico were greeted with applause as they arose to answer their names. After the routine business the convention adjourned till to-morrow.

The Darkey Wins the Race.

SAN FRANCISCO, Feb. 28.—The six day go-as-you-please match came to an end last evening at 10 P. M., and was won by Hart (colored) with 526 miles. Moore was second, with 525 miles and two laps. The management claimed that the gate receipts amounted to \$26,000, of which Hart will get 60 per cent, and Moore 40 per cent. Following is the score of the others who finished in the match: Pat Guerrero, 408 miles and 3 laps; Broderick, 273 miles; "Geddy" Goddy, 223 miles; "Old Sport," Campana, 385 miles and 6 laps; Crozier, 303 miles and 2 laps.

Cabinet Speculations.

NEW YORK, Feb. 28.—A Washington special says: Senator Sherman spent an hour with General Harrison this morning, and afterwards told a friend that Senator Palmer of Michigan, and also quotes Vice President-Elect Morton as saying that Thomas C. Platt will not be in the cabinet.

ST. GEORGE, Ontario, Feb. 28.—Mrs. Higgins of Toronto, one of the persons injured in the railway accident last night, died this morning. Miss Andrews of Belleville, Miss McLean of Ingersoll and Dr. Lequeane of Cleveland, Ohio, are all in a very critical condition.

The amount of capital invested in the mines of the Territories by aliens, as near as could be ascertained, is \$20,503,570, and the dividends paid thereon \$4,737,800. The committee recommends that the Alien Land Act be so modified as to admit of capital to be used in the development of mines in the Territories.

Give Us Back Our Cashiers.

OTTAWA, Ont., Feb. 27.—In the House to-day Wheeldon explained the provisions of his extradition bill, which enlarges the list of extraditable offenses. The dregs of Mexico and the United States, he said, are settling down in Canada, owing to her geographical position. It is within the power of the Canadian Parliament to set in motion machinery which will drive out the criminals who are enjoying an asylum here. The bill was read the first time.

Important If True.

OTTAWA, Feb. 27.—A report is in circulation that Sir John McDonald has been offered the Post of British Ambassador to the United States. The British Government, it is said, has begun to realize the necessity of sending to Washington a representative who is well informed on North American affairs. If Sir John accepts the alleged offer, Sir Charles Tupper will probably assume the leadership of the Dominion Government.

A Missouri Incident.

WINONA, Mo., Feb. 27.—Sheriff Turley of Carter county was killed and his deputy seriously wounded to-day at Lowassee. The officers had arrested a man named Thompson for forgery, when his brother-in-law, a man named Taylor, came up and killed the Sheriff and wounded his deputy with a revolver. The deputy shot and wounded Taylor, but he made his escape.

An Old Man Robbed.

LIGONIER, Pa., Feb. 28.—Last night masked men entered the house of Herman Umberger, an aged farmer, and robbed him of \$13,000 in cash.

To be Tried.

Lizzie Beecher, who shot and killed Harry King, the son of a wealthy Chicago merchant, at a hotel in Omaha, a few months ago, refuses to plead to the indictment under the name of Beecher. Her attorneys filed a plea of insanity, alleging her true name to be Mrs. Elizabeth King. She will plead and be tried under this name.

The Best Thing for Him to Do.

Gus Lawin was found dead in his room at Modesto, Cal., last Tuesday night. He was addicted to the use of morphine for insomnia, caused from the excessive use of cigarettes, and his death is supposed to have been caused from accidentally taking an overdose of the drug.

JOTTINGS.

All kinds of stamped goods, such as trays, cloths, bibs, etc., at Miss Emma Gibbs.

The noise of the Truckee river as it runs past the Riverside Hotel lulls its inmates to sleep.

Portfolios, ladies satchels, combs, hair, tooth, nail and shaving brushes and lead pencils, at C. A. Thurston's news depot.

There is no time in the day or week that you cannot get a nice lunch and a glass of Pacific or Fredericksburg beer at George Becker's.

C. J. Brookins' taffy, which he manufactures daily, can not be extolled anywhere. He also carries a full line of French mixed candies.

Parnell's victory over his enemies causes great rejoicing among his friends, and J. Becker's patrons are also pleased to know where to go for a nice hot lunch.

Never Give Up.

If you suffer with asthma, bronchitis, or any other disease of the throat or lungs, nothing can surprise you more than the rapid improvement that will follow the use of Santa Ana. If you are troubled with catarrh, and have tried other medicines, you will be unable to express your amazement at the marvelous and instantaneous curative powers of California Cat-Rue. These remedies are not secret compounds, but natural productions of California. Sold at \$1.00 a package or 3 for \$2.50, and guaranteed by Osburn & Shoemaker.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Hodgkinson's drug store as their giving away of Dr. King's Discovery for Consumption. Their trade is simply enormous in this valuable article from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free; large size, 5¢. Every bottle warranted.

Persons troubled with rheumatism should try Chamberlain's Pain Balm. One application will ease the pain, and its continued use has cured many cases of chronic and inflammatory rheumatism that had resisted other remedies and even the treatment of the best physicians. Price, 50 cents per bottle. For sale by Osburn & Shoemaker.

DON'T LIE.

W. H. Moger Tells the Sacramento "Record-Union" a Falsehood and is Raked Over the Coals.

The Journal publishes this morning an account of the "sand-bagging" of W. H. Moger, the eldest son of Capt. A. Moger, formerly of Reno, in Sacramento. The truth is Moger got gloriously drunk and got badly punched in a dive. The *Record-Union* says the fact is, he got on a glorious drunk, was kicked out, and his nose broken in a fight, and if he wants to know how he got home he only has to ask Kate Cook, who took pity upon him in the wee small hours of night and piloted him to bed. Just why W. H. Moger should impose upon physicians and reporters with such a wholesale lie is hard to understand, but he is certainly welcome to all the notoriety it has given him.

MORE SMALLPOX.

Another Yellow Flag Thrown to the Breeze.

About noon yesterday it was discovered that Captain Avery, one of the best known residents of Carson, was a full-blown smallpox subject, yet only as late as Monday he was circulating around among his numerous friends on the street and did not consider the fact that he had caught the disease as a fearful blot on his name. Health Officer Dr. Lee and Dr. Guion both agree in pronouncing it a genuine case of smallpox. The Captain is hived up in his room in King street, only one block west from the main street, and a yellow flag taboos the establishment. He is well cared for and will recover in due time.

BREVITIES.

Local and General Intelligence.

Read Miss May Savage's 50-cent dancing school ad.

Fish Commissioner Mills has appointed Ernest Harris as his deputy. Shaff and McNeese have the contract of building Dr. Wagner's new house.

Bakeless is having the finishing touches put on his new residence on Mill street, South Side.

The Palace Dry Goods and Carpet House has an elegant display of spring goods in their show window.

S. W. Rude of Winnemucca is said to be a candidate for United States Marshal of Nevada. He is endorsed by the *Silver State*.

Look Out for Him.

The Sacramento *Record-Union* of last Tuesday said: "An impostor is going about the city soliciting pupils to whom he proposes to teach a new method in painting—a short road to excellence in retouching—and represents himself as a relative of Inspector Jackson of the Sacramento School of Design and as a legal representative of the Museum Director and the School, to solicit pupils for his method. Mr. Jackson and President Green denounce the fellow as a fraud."

It is quite likely, says the Nevada *Transcript*, that the above party is the "Mr. Ellis of Philadelphia" who recently swindled numerous ladies in Nevada City by getting them to pay in advance for lessons they never received.

The Appropriations Made.

CARSON, Feb. 28, 1889.

Both the appropriation bills passed the House to-day—the one appropriating \$15,000 for the State Fair and the other bonding the county for \$10,000, to pay off the indebtedness of the Agricultural Society, and are now, or will be, as soon as the Governor affixes his signature, laws.

Stock Shipments.

A special from Carson this morning brought twelve cars of beef cattle shipped by Kirman & Riecke to E. & H. Moffatt, San Francisco, and eight cars bought of D. C. Simpson by Joe Wheeler for Poley, Heilbron & Co., same place.

George Humphrey yesterday shipped one carload of beef cattle to Dutch Flat.

The Weekly Gazette and Stockman.

THE WEEKLY GAZETTE AND STOCKMAN, published to-day, is replete with all the news. It contains thirty-four columns of carefully-selected reading matter, and the paper is worth double the price asked for it (\$2 per year.) It is just the journal for the farmer, mechanic and miner.

Fine Chickens.

William Wells received this morning from California a Langshan rooster which is as black as a coal and as large as a turkey. Mr. Wells, who is located on Truckee Meadows, has quite a number of varieties of the finest chickens ever brought to this section.

Stock Dying.

Stanley & Sweetser's foreman reports cattle dying near the Three Forks of the Owyhee, the cause being a want of snow and water on the winter range.

A Los Angeles Hotel.

The property known as the Tenth-street Hotel, at Los Angeles, has been purchased by G. M. Pullman for about \$750,000, and it is said he will continue the contemplated improvements, and build a hotel to cost \$1,500,000.

Important to Breeders.

E. W. Crutcher has a very fine thoroughbred Clydesdale stallion for sale. He was imported from England by Jesse Harris, and is registered in the English Stud Book (No. 3,408, vol. 7). This beautiful animal was foaled May 26, 1882, and weighs about 1,700 pounds when in condition. He works single and double, and is perfectly reliable and kind. Here is an opportunity seldom offered for some enterprising breeder to get a fine horse cheap. Horse men wishing to purchase a fine animal can do so by calling at the Theater Stables and taking a look at Mr. Crutcher's.

Why Women Should Vote.

Alice Stone Blackwell of the *Woman's Journal*, in an article contributed to the *American Statesman*, writes: "From the standpoint of the advocates of equal rights, the reasons why a woman should vote are the same as the reasons why a man should vote. The best government, we are told, is a government of the people, by the people, and for the people. If the people are women, to exclude half the nation from the ballot-box, unless some very good reason can be given for doing so, is plainly contrary to American principles."

A Valuable Paper.

The District of Columbia Assessors have assessed the value of the Washington *Evening Star* newspaper stock for taxation at \$1,339,397, and the full value at \$2,009,067. The paper hitherto has been assessed at \$50,000.

A Titled Convict.

Professor August Vonwiersheim, who claims to be a German baron, has been sent to the penitentiary for one year from Fort Wayne, Ind., for obtaining money under false pretenses.

Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50¢ and \$1 bottles by all leading druggists.

Backlen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. Cures, too, the most perfect skin disease, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co., druggists.

The immediate symptoms of Dyspepsia, or Indigestion, are a distressing sense of weight, oppression and fullness in the stomach, loss of appetite, flatulence, belching, flatulency, nausea, pains in the shoulders and breast. Dr. Henry's Dandelion Tonic promotes healthy digestion and removes all unhealthy symptoms. Sold by William Finkler.

This is the season of the year when the raw, cold winds create and havoc with the hands and complexion. Soft, white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Tetard's Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by William Finkler.

It should be generally known that Dr. Henry's Dandelion Tonic insures a hearty appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and wakefulness, and will insure new life and strength into the weakest invalid. Sold by William Finkler.

Coughs and Colds. Those who are suffering from Coughs, Colds, Sore Throat, should try Henry's Balsam of Peppermint. Sold only in boxes.

The Fastest Steamers Patented.

The tide of travel for Europe is said to be unusually large for this time of the year. The fleet of steamboats will be increased to meet the rush, and it is noticed that the "greyhounds" are rapidly taking the place of the old and tried vessels.

The Best Laid Plans of Mice and Men.

Gang aft agley. Not so Housie's Stomach Bitters. It goes right to the spot it is designed to beneficially affect, and there is no tardiness in its action. But while it relieves constipation in common with dyspepsia and liver complaint—associate evils—the griping and abdominal disturbances produced by drastic purgatives never precede its operation. Its thoroughness is unmarred by violence, the chief characteristic of most laxatives, and one that is highly prejudicial to both bowels and stomach. It is only by invigorating the intestinal canal, and thus fitting it to perform its office as a natural sluice for the efflux matter of the system, that its regularity can be perpetuated. To weaken by drugging is to insure its relapse into disorder. Take the Bitters never does. Chills and fever, nervousness, kidney complaints yield to the Bitters, and appetite and sleep are improved by it.

Epiphany.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic, if you are troubled with any disease of the Kidney or Liver or Stomach, of long or short standing you will surely find relief by the use of Electric Bitters. Sold at 50¢ and \$1 per bottle at Hodgkinson's drug store.

Oregon is one of the most productive States in the Union. Its vast mineral regions contain gold, silver, copper, iron and coal. Its immense tracts of grazing lands support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the yield per acre being in some instances, the largest in the world. Among the useful and valuable products of the Willamette State may be mentioned Oregon Kidney Tea, which has proved a boon to thousands afflicted with pain in the back and kidney difficulties. It is a purely vegetable composition and never fails. Sold by William Finkler.

AYER'S PILLS

CURE HEADACHE.

Headaches are usually induced by cos-
tiveness, indigestion, foul stomach, or
other derangements of the digestive sys-
tem, and may be easily cured by the use
of Ayer's Pills. Mrs. Mary A. Scott,
Portland, Me., writes: "I had suffered
dreadfully from Sick Headache, and
thought myself incurable. Disorder of
the stomach caused it. Ayer's Pills cured
me entirely."

CURE BILIOUSNESS.

John C. Patton, Lowell, Nebr., writes:
"I was attacked with Bilious Fever, which
was followed by Jaundice. I was so
dangerously ill, that my friends despaired
of my recovery. I commenced taking
Ayer's Cathartic Pills, and soon regained
my customary strength and vigor. I feel
certain that I owe my recovery to your
invaluable Pills."

CURE INDIGESTION.

Ayer's Pills act directly on the digestive
and assimilative organs, influencing health-
ful action, imparting strength, and crudi-
tating disease. G. W. Moorey, Walla
Walla, W. T., writes: "I have suffered
from Dyspepsia and Liver trouble for
years past. I found no permanent relief,
until I commenced taking Ayer's Pills,
which have effected a complete cure."

A CLEVER ARGUMENT.

How a Stuttering Lawyer Won an Almost
Hopeless Case.

There used to be in practice in one of the
southeastern cities of Massachusetts, says
the Listener in the Boston Evening Trans-
cript, a well-known lawyer who had a con-
siderable degree of success at the bar, in
spite of an infirmity of speech that he
never could get rid of. His stuttering ap-
peals in behalf of his clients were some-
times fearful and wonderful deliverances
oratorically, but his opponents used to say
that they really gained in effectiveness from
his stuttering, because the jury not
only sympathized with him, but had time
to take in and digest all his points.

One day he appeared in a Bristol County
court-room before Judge Pitman and a
jury, to defend a very tough-looking citi-
zen, who had been arrested on a charge of
selling liquor without a license. The man
had a bad reputation and a bad face;
whisky had been found on his premises,
and if ever a man was convicted before he
was tried it seemed to be this one.

But his stuttering lawyer was equal to
the emergency. He questioned the
policeman who made the seizure.

"You s-s-say you found it in the house?"

"Yes."

"W-w-w-hat kind of liquor w-w-was it?"

"Whisky."

"Um. Now, h-h-how much w-b-b-bisky
did you f-f-f-and?"

"About a half a pint, sir."

"H-h-h-half a pint, yes. Now, g-g-g-
gentlemen of the j-j-j-jury, I want you to
take a good l-l-long look at my c-c-c-c-

"My client."

"The jury took a good look at him. He
wasn't a very pleasant sight to see; his
nose was a sort of purple vermilion and
considerably exaggerated in its proportions
at that; his brows were low and shaggy,
and his eyes bleared."

"Now, g-g-g-g-gentlemen of the j-j-j-
-j-j-j-jury," the lawyer went on, "I want you
to t-t-t-tell me if my c-c-c-c-o-o-o-o-l-l-e-n-t
looks like a man that would s-s-s-sell a half pint
of whisky if it was all he had in the house."

The jury acquit the man without
leaving their seats.

LOOKING GLASSES.

Some Interesting Facts Regarding Their
Manufacture.

"How is a looking glass made?" was the
question asked by a Dispatch reporter of a
local Pittsburgh manufacturer engaged in
that line of business.

"That is a secret which we keep to our-
selves. Even our employees are not in-
formed as to all the processes. Each work-
man has a certain amount of work to do; he
learns this and no more. Many other pro-
cesses we use are patented, and others are
known to but very few persons in this coun-
try. But I can tell you something about the
business if you wish. Pittsburgh (or rather
Allegheny) is the only city between New
York and Chicago where plate-glass mir-
rors are made, and there is but one firm
manufacturing them here. Pittsburgh plate
glass, which is as good as that made any-
where, is largely used. The glass is taken as
it comes from the factory and out, beveled
and silvered in our works. All bevels are
cut in the same way, first with sand and
water then on an emery wheel, and after-
ward put through various processes to bring
back the polish. Great improvements have
been made in this line of industry in the
past few years. Formerly it took three weeks
from the time work was begun on a mirror
before it could be finished. Now we can
get the glass in the morning and make it
into a mirror perfectly finished and ready
for sale before evening. We make all sizes
from the smallest up to glasses 6x12 feet or
even larger and have a capacity of turning
out 3,000 feet per day.

"Formerly the backs of mirrors were
coated with mercury; now sheets of pure
silver are used instead. The old mirror re-
flected sixty or sixty-five per cent. of the
light that fell upon it; the modern mirror
reflects nearly ninety-five per cent. The
mercury looking glass was very liable to rub
off; heat and cold also affected it; the quick-
silver would come to the surface, and the ef-
fect of the glass would be spoiled. None of these
 dangers threaten the silvered mirrors."

"Besides mirrors we cut a great deal of
beveled plate glass for doors and window.
In fine buildings this is largely taking the
place of stained glass."

GOLDEN OPPORTUNITIES.

How Father Taylor and Henry Ward
Beecher Made Use of Them.

The true preacher, the "one who loves his
fellow men," never fails to seize an oppor-
tunity of ministering to their needs. Any
occurrence of the present moment furnishes
a text. Hugh McCulloch says in "Men and
Measures of Half a Century" that one day,
as Father Taylor entered his chapel, a note
was handed him, containing a text from
which he was desired to preach.

It was signed "An Aged Seaman," and
instead of preaching from the verse, Fa-
ther Taylor made this signature his text.

"An aged seaman!" he repeated, sadly;
"an aged seaman! and why are there so
few aged seamen? Why is it that among
the hundreds before me there is not a
single old man, scarcely one who is past
middle age?"

Then, in trumpet tones, he went on to
enumerate the woes which cut men off in
their prime, and spoke of each man's ac-
countability for putting to noble uses the
talents he had received. Finally, he dwelt
upon the dangers to which all men are ex-
posed, and concluded in tones which
brought tears to every eye: "God save the
mariners when no human hand can save, in
the raging of the great deep! God be mer-
ciful to those who are sunk in woes deeper
and more dreadful than the sea!"

As he knelt to pray his hearers knelt al-
so, tears streaming down their cheeks.

Henry Ward Beecher was once called
upon unexpectedly to attend, at the funeral
of a man who had long been a drunkard.
The man had no family, but a large number
of his associates, blind-eyed and hard-faced
men, had assembled to show their regard
for him. The preacher did not shrink from
the cross of addressing them personally,
and, with the terrible example of the dead
man before their eyes, warning them that
their own future might be as grievous as
his. The men wept like children, and two
of them were afterwards absolutely tem-
perate.

"I never felt," said Mr. Beecher, after-
ward, "I never felt God's helping hand as I
did when I addressed a score of drunkards
at a drunkard's funeral."

An Official Pencil-Sharpener.

While your correspondent was talking to
one of the clerks of the State Department
the other day, says a Washington letter to
the Kansas City Journal, the gentleman in
question touched an electric button and a
swarthy messenger appeared at his elbow
in a moment. Not a word was said, but the
clerk, with a grand air, passed to the mes-
senger a lead pencil, the point of which had
been dulled. The messenger bowed almost
to the floor and vanished without a sound.
In two minutes he again appeared, and
with an obsequious salutation, he handed the
now-sharpened Pencil to the clerk and
again he departed without having a word
passed between the two. That is one
sample of the way in which the state in the
diplomatic branch of the Government af-
fects an unsuspecting young man who is
induced to accept a Government salary for
the service he performs there.

thoroughly good in their action,
and leave the system in splendid con-
dition. As a cathartic, or for disor-
ders of the liver, St. Patrick's Pills have
no equal. For sale by Osburn & Shoe-
